REGIONAL CHILDCARE

FOUNDING IMPACT PARTNER PROSPECTUS

Designed for organisations ready to move
from good intentions to meaningful impact.

THE OPPORTUNITY

The Future Care Project is Australia's first regionally led social enterprise redesigning how childcare is accessed in rural and remote communities.

 This is not a pilot.

 This is not theory.

 This is action and delivery.

We unlock workforce participation and strengthen regional economies by supporting families and childcare providers with flexible, community-based childcare solutions where traditional systems fall short.

We are seeking Founding Impact Partners to stand with us and be proudly associated with a solution that is already changing lives and designed to scale nationally with your help.

WHY IT MATTERS

In regional Australia, childcare is critical infrastructure.

When childcare is unavailable:

Parents can't work

Businesses can't staff

Communities stall

The Future Care Project creates:

Flexible, in-home and community-based childcare pathways

Business and funding support to assist new childcare providers

Practical solutions that adapt to the needs of rural and remote communities

Your sponsorship directly supports delivery, not administration, not awareness campaigns, not reports that sit on shelves.

This investment strengthens communities, supports working families and helps secure a stronger future for all of Regional Australia.
